

MEDISCA's Oral Bases

**OVER 30 ORAL BUD
STUDIES COMPLETED!**

Conveniently formulated, MEDISCA's line of oral vehicles aims to ease the preparation of extemporaneous dosage forms even when dietary restrictions are of a concern. Providing pharmacists with five **DYE-FREE ORAL VEHICLES**, elegant and physically stable suspensions are to be expected. Refer to the MEDISCA Oral Bases video for more information.

Unique Aspects of Our Stability-Indicating Oral BUD Studies

- Often conducted using both forms of APIs (raw ingredient and commercial drug);
- Stability data also available in MEDISCA's PreciseDose Dispenser™ (oral syringe).

Features & Benefits	ORAL SUSPEND	ORAL SYRUP	ORAL MIX	ORAL SYRUP SF	ORAL MIX SF
PRODUCT NUMBER	2510	2511	2512	2599	2600
APPEARANCE	Viscous off-white aqueous liquid. Thixotropic.	Clear to slightly tinted liquid	Off-white aqueous liquid	Clear to slightly tinted liquid	Off-white aqueous liquid
TASTE	Bland; Unsweetened	Cherry			
APPLICATION	Pediatric and Geriatric compounded suspensions			Pediatric and Geriatric sugar-free compounded suspensions for patients with special dietary restrictions	
INTENDED USE	Suspending vehicle	Flavoured syrup vehicle	Flavoured suspending vehicle	Sugar-free flavoured syrup vehicle	Sugar-free flavoured suspending vehicle
pH	4.0 – 5.0				
OSMOLALITY (mOsmol/kg) Approx.	48	2381	1231	1585	795
DYE-FREE & ALCOHOL-FREE	Yes				
PRESERVATIVE EFFECTIVENESS	Passes USP microbial challenge test <51>				
STABILITY DATA	BUD studies and publications available at MEDISCA.com/studies				
AVAILABILITY	473 mL, 4 L
