Introducing
THE POWER OF PROMILL™
For The High Volume Compounder

POWER • CALIBRATION • CLEANING
A MEDISCA Exclusive Innovation
MEDISCA's ProMill elevates ointment mills to a higher level of production. Its distinctive features include a capacity of up to 11 liters per hour, a self-calibration option and an innovative cleaning tool for its fixed rollers. This robust machine was designed specifically for compounders who need to mill large volumes of preparations in the most efficient manner. ProMill is your new powerhouse mill.

**Features & Benefits**

- **High volume throughput, up to 11 liters per hour**
- **Large hopper of 1.75 liters** enables to process more material
- **Digital control panel with variable speed control and counter time capabilities**
- **Solid and easy to clean aluminum oxide rollers** for long term performance
- **Self-calibrating gap distances**
- **Equipped with safety features: an emergency stop and engine overload protection**

**Excellent Return on Investment for High Volume Compounders**

- Hourly Cost of Technician Labor and Benefits: $25.00
- Assumption: Compounding 100 x 240 mL scripts = 24 L/day

**MEDISCA’s ProMill** has been certified by TÜV SUD for having successfully completed the testing against the standard IEC 61010-1: Safety Requirements for Electrical Equipment of Measurement, Control, and Laboratory Use. TÜV SUD is recognized by:

- OSHA
- Standards Council of Canada
- Conseil canadien des normes
Take Power Into Your Own Hands!

In only 10 minutes, you can calibrate the gaps should any misalignment occur. The calibration tool kit is supplied with each MEDISCA ProMill™ Starter Package, allowing you to control gap fineness and self-calibrate to avoid any downtime. Increase efficiency by saving time and money.

Ingenious Innovation!

Simplify and expedite your cleaning routine. MEDISCA's ProMill cleaning tool is an incredible, one of a kind cleaning device that facilitates the cleaning operation, and is specifically designed for ProMill's fixed rollers.

Cleaning Tool Microfibers provide additional convenience during the cleaning process. It is as simple as Attach. Clean. Discard. Mill Again.
