TEFLON COVERS (Impak Corp)

1 yard x 2" x 6mm Thick, For STS-7 Tube Sealer, PTFE Covers w/Adhesive Strip

DESCRIPTION: These Teflon covers are used as replacements after prolonged use. These covers are PTFE so that the plastic ointment tubes do not burn or discolor. These Teflon covers should be changed every 6 months to 1 year, depending on the tube sealer's frequency of use. The Teflon cover is 1 yard in length therefore can be cut accordingly for replacement.
