ECO-SMART FUNNEL

186mL, 2.4" to 1/4" Funnel, Heavy Grade Paper, Blue
PK/25

DESCRIPTION: The Eco-Smart Funnel is made with biodegradable heavy grade paper. It can be used to transfer virtually any fluid or powder.

FEATURES:

- Environmentally friendly paper product that will naturally biodegrade in the standard municipal waste stream.
- Made of clay coated heavy grade paper.
- Innovative "backrest" allows hands-free use when pouring viscous liquids.
- Maximum flexibility - cut stem to any desired opening size or shape.
- Apply a minimum of pressure and the funnel will stay in position.
- Use with virtually any liquid or powder - Not recommended for hot liquids.
