

STEP 1:

Turn the base of the MD Pen counter clockwise into the OPEN position. Make sure to hear the click.

STEP 2:

Press the base to dispense on localized area.

STEP 3:

Apply the medication using the soft silicone tip by rubbing it into the area of application as directed by your pharmacist.

STEP 4:

Turn the base of the MD Pen clockwise into the CLOSE position. Make sure to hear the click.

STEP 5:

Call for refill, once the piston nears the domed part of the view window.
