**PRODUCT NO. 8302**

**IMPULSE BAG HEAT SEALER W/CUTTER (MIDWEST PACIFIC)**  
**8" Seal Length, 6mil Maximum Sealable Material Thickness**

**DESCRIPTION:** Adjustable electronic timer controls heating duration to properly seal polypropylene and polyethylene bags up to 6 mil thick. No warm-up required. Flat element sealer does not melt through bags; use scissors or other cutting instrument to trim bag tops and tails to create super strong, tamper-evident tail flap seal. Not recommended for sealing material thicker than 6 mil. 8" seal width.

**TECHNICAL SPECIFICATION:**

-  Seal width: 8"
-  Maximum Sealable Material Thickness: 6 mil

**ADDITIONAL INFORMATION:**

**WARRANTY:** 90 days
